SPRING SUMMER 2025

25 SPRING SUMMER

SCULPTED *SERENITY*

Outerwear

Delivery 01.01. - 28.02.25

From hybrid surfaces of fluid water to wavy concrete landscapes.

In this Spring Summer '25 collection we slide between tailored, smooth and textured surfaces. Yarns become weaves and fabrics easily take on different shapes and structures.

This collection is a new blend of fresh forms in well-known fabrics, versus new materials in known shapes. It is a play between the robustness a coat needs to serve you, and the fluidity of new modern trend items, ready to surprise you!

The underlying currents and emerging trends are the revisited classics, such as the trench-coat, the raincoat and the biker jacket. They can be found in new shapes or fabrics, for example in a technical satin or in utility style with a washed look and feel.

We embrace flawless functionality combined with trend, adapting to different uses. New reversible parkas in short and long. New versions of bomber jackets in a chic satin or a more urban look.

New surprising summer quilted coats and patterns to protect you from an transseasonal breeze.

Our Spring Summer 2025 outerwear collection sees trends and new materials married with considered, functional design for real-life.

Colour:

Find rich gradations in both earthy shades and also in muted pastels. The collection includes evolving colours inspired by nature and vast landscapes, where natural shades transform into bright colours when the sun finally kicks in. When zooming in, we see a call for cheerful clarity, with power and seductiveness.

These electrifying flashes of colour create a beautiful juxtaposition between ecstatic and soft moving shades. Summer darks also play a role for a strong beginning and end of the season. Discover soft faded bi-colour and monochrome prints, black contrast details or a bit of shimmering gold.

SOLARIZED REFLECTIONS

Ready-to-Wear / Drop 1
Delivery 01.01. – 28.02.25

This transseasonal drop features soft and natural tones reflecting the solar light. Slowly awakening from hibernation, we find swirly paisley spring patterns and a powerful revival of the leopard print. They blend in playfully, challenging freely other colours and textures. In our viscose-satin blend we find migrating patterns of water drops fading away. Pigments dissolve and intermingle like ink stains on thin paper. The solid colours are catching the solar light and reflecting light, bringing fluidity and shine.

New elegant tailored pieces show updated smooth shapes in natural earthy tones. Find washed, minimal surfaces and faded colours in our Lenzing™ modal and Lenzing Lyocell™ program.

Silky soft jerseys will carry you away with its softness.

This wave of soft shades runs also through our denim. Colours are muted, washes are faded, with a shimmering metallic variation as well.

The transseasonal and versatile knitwear in this drop plays with weights on heavy dense knits and ultralights knits, with shimmering smooth and dry textured surfaces to create layering.

Woven flower jacquards with delicate transparencies are playing a small part, as well as eccentric tweed in fresh pink and graphic weaves.

Bright flashy pink is definitely taking a lead in this drop, launching spring time!

ELECTRIC *ROMANTICISM*

Ready-to-Wear / Drop 2
Delivery 15.02. - 31.03.25

Suppleness, ease and lightness take the lead in this drop. Fine modal jerseys and fluid silhouettes float around the feminine body, embracing fluidity.

Milky yellow soft tones symbolize softness and light. Sensual expressions we find in lilac and dusty orange shades. Romantic stories are told in our fuzzy flower print with electric orange and purple. Open knit structures and fantasy ribbon details are flirting with femininity this summer.

The sandy grains of crepe fabric show soft shades in tailoring, a sleek suiting with a fresh and elegant look.

Playful summer blouses embellished with yarn-embroidered flower motifs or fringed flower jacquards adding a feminine, romantic touch to modest shapes.

The power of green transforms this Eden-inspired scene into blooming liveliness. Clover Green in combination with our Black and Birch bi-colour print is giving shape to a bold contrast. Two-tone patterns are simplified to the point of abstraction in a fluid crepe and soft dry linen blend. Sunlight filters through fine textures with relaxed and easy-going shapes that understand that luxury is in the details, simple and true.

FLIRTY *HUES*

Ready-to-Wear / Drop 3
Delivery 01.04. - 01.05.25

The sun shines high, a shadow is drawing sharp lines as well as creating abstract motifs. At the poolside the reflection of the sun on the water blurs those hard edges. Highly diluted colourful waterprints are playing with this setting. Pastel colours blend together in soft warm hues and are taking in shape in fluid soft crinkly summer items. We find clarity in our solids as well as in a print of fresh yellow hues, another summer approach with drips and drops.

High summer co-ord sets in tonal poplin embroidery are giving cuteness. Wear it with our big raffia beach bag. Hot coral is the big catchy colour of this drop. Golden geometric stripes and tiny tone-on-tone textures show a new delicacy. Pieces are more airy and lighter. We are ready for a sunny holiday!
